

REACH Compliance Declaration

We hereby declare that our products fully comply with the related requirements of the European Union Regulation (EC) 1907/2006 concerning the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH).

LAUDA Scientific does not distribute any substances or preparations affected by REACH, nor does it import any. REACH relevant substances are not intentionally released by LAUDA products. Accordingly, we foresee no registration or authorization requirement for the products supplied.

With regard to the requirements of Article 67 of REACH and Annex XVII, based on the information from our suppliers, we declare to the best of our knowledge that none of the listed substances is present in LAUDA Scientific products.

With regard to the requirements of Article 33 and 34 of REACH and Annex XIV we declare that except Note 1, 2 and 3 none of the SVHC (the Candidate List of Substances of Very High Concern for authorization released by ECHA on January 16th 2020) is present in LAUDA Scientific products in a concentration of equal or above 0.1 percent.

As set out in REACH terms, LAUDA Scientific is a "downstream user" and therefore strongly dependent on the information provided of our suppliers active or on demand of LAUDA Scientific. Therefore, in our own interest and in the interest of our customers, we are in constant dialog with our suppliers in order to check that all of the products delivered are REACH compliant and we are informed about SVHC contained if necessary.

If REACH regulation is updated, such as the addition of SHVC into Annex XIV or the addition of restriction of substances in Annex XVII, LAUDA Scientific will evaluate the impact in time and update this declaration to reflect changes if necessary.

Note 1: Some of our bath liquids contain SVHC. We inform our customers by the REACH compliant Safety Data Sheets. See Download center: <https://www.lauda.de/en/services/download-center/filter/Safety-data-sheet.html>

Note 2: Most of our products contain lead (CAS-Number: 7439-92-1) and/or lead oxide (CAS-Number: 1317-36-8) in some components covered by exemptions 6a-6c and 7c.I of RoHS (Restriction Of the use of certain Hazardous Substances in electrical and electronic equipment) directive 2011/65/EU.
